About the Wings over the Rockies Air & Space Museum - Phil Steffes

From 1937 to 1994, Lowry Air Force Base, served the nation and the surrounding community in many distinguished ways. The air base, primarily a technical training center, graduated more than 1.1 million enlisted members and officers in skills ranging from armament to photography, tremendously strengthening the country's war efforts in World War II, the Korean War, the Vietnam War and the Cold War. In addition, from the 1980's, Lowry Air Force Base remained one of Colorado's largest employers, with approximately 10,000 military and civilian men and women, providing an economic impact approaching \$1 billion annually. Thus, Lowry significantly contributed to maintaining the world's largest air force and to promoting the accelerated growth of the Denver metro and Colorado.

BIG BEAR ICE ARENA

FORMERLY **THE "BLACK SHACK"**

The "Black Shack" got its name because of the "secret" ops that were performed inside. Airmen were taught how to load a nuclear warhead on a Titan missile body.

CO ALLERGY & ASTHMA CENTERS

FORMERLY **THE PHOTOGRAPHY SCHOOL**

At the Photography School, airmen learned how to operate and maintain cameras as well as how to interpret aerial photography.
