# EAM360 Application Suite

EAM360 is Sedin's Proprietary Mobile Application for Maximo and an IBM-validated solution.

EAM360 interacts with IBM's Maximo application in both real-time (connected) & offline (disconnected) modes.

EAM360 is a 100% Native Mobile app developed exclusively for Maximo

# EAM360 – The Differentiators

## Speed and Responsiveness

Native apps use platform-specific languages (Swift for iOS, Kotlin/Java for Android)

## Exceptional user experience

Native apps harness platform-specific UI elements, offering a consistent and familiar UI.

## Security

Native apps leverage OS security features, implementing strong encryption mechanisms to protect sensitive enterprise data.

## Scalable & future-proof

Native apps have direct access to device functionalities (camera, GPS, sensors) for advanced features like Augmented Reality & Location-based services, making them scalable & future-proof.
